***Election/Restrictions***

Applicant's election with traverse is acknowledged. However, his comments are directed toward restriction of inventions and not species election as in the present case. The claims directed to the window treatment use of the device contains the structural limitation "top" which limits the device to a nonhorizontal structure, as opposed to the horizontal bed clothes. The Examiner agrees with Applicant's grouping and group 2 will be examined.

The requirement is still deemed proper and is therefore made FINAL.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8, 11-16 and 21-24 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Casey.

Casey provides a plurality of fabric sections 2 joined by fasteners such as snaps, buttons and Velcro™, column 2, lines 62-68, which are hidden. The shape, pattern, color, design, etc., may be changed with this system, column 2, lines 7-10. The placement of the covering on a bed meets claim 23.

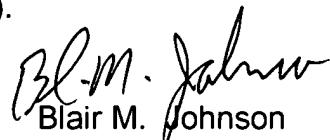

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
